

Sexual Violence, The Law & Legal Options for Survivors

About this course

In this self-paced module Sexual Violence in a legal framework is explored. Sexual violence in Canadian law has different definitions, that provide different legal options for survivors to consider. Understanding how and where sexual violence fits in a legal framework will equip you to have a more in-depth understanding of the issues. This course was developed in collaboration with Metrac: Action on Violence.

You will learn

1. The different legal definitions of different forms of sexual violence
2. Understand the criminal court process and other legal processes
3. Information about protection orders

After completion you will be able to

1. Increase your understanding about how sexual violence is defined and addressed in Canadian law
2. Gain knowledge about the criminal court process and other legal processes that may support survivors of sexual violence
3. Learn about the pros and cons of legal options to assist survivors of sexual violence
